# CHRISTIAN PETRI

IT SECURITY · NETWORKS · SYSTEMS

## PROFILE

My background is in technical support and hardware refurbishment, where I tested and repaired computers and set up Windows and Linux. I then completed full-time training in IT security and networking. I'm particularly interested in troubleshooting, secure system configuration, and understanding how vulnerabilities arise and how to fix them.

## CERTIFICATIONS

| | |
|---|---|
| 02/2026 | CompTIA Network Vulnerability Assessment Professional (CNVP) |
| 02/2026 | CompTIA PenTest+ |
| 02/2026 | Cyber Security Advisor (IHK) |
| 12/2025 | CompTIA Security+ |
| 08/2025 | CompTIA Network+ |

## TRAINING

05/2025 – 02/2026

### Full-time IT Security Training

MindRefined GmbH / Remote

Practical exercises in lab environments.

- Networking and security fundamentals: TCP/IP, DNS, routing/NAT, VPNs, security controls, and logging/monitoring using log sources and basic alert/event triage.
- Vulnerability management: scanned and enumerated systems with Nmap, prioritised findings by CVSS and impact, documented remediation, and re-tested.
- Web application testing: proxied and modified HTTP requests with Burp Suite and tested authentication, sessions, and input validation.
- Documented findings with evidence, risk assessments, and practical recommendations.
- IHK case study: policy for secure administrative remote access with reference to ISO/IEC 27001 and BSI IT-Grundschutz; protection requirements determination, gap analysis, risk assessment, and remediation planning.

## TECHNICAL SKILLS

| | |
|---|---|
| SECURITY | Vulnerability management; network and web application testing in lab environments; risk assessment and reporting; fundamentals of IAM and hardening |
| GOVERNANCE | ISO/IEC 27001, BSI IT-Grundschutz, protection requirements determination, policy development |
| NETWORKING | TCP/IP, subnetting, DNS, DHCP, routing, NAT, VPNs |

| | | |
|---|---|---|
| | TOOLS & OS | Linux – Ubuntu/Debian; Kali (lab environments); Windows 10/11; Wireshark; Nmap; Burp Suite; PowerShell fundamentals; Git; VMware; VirtualBox |

## PROFESSIONAL EXPERIENCE

11/2024 – 05/2025

### Technical Support / IT Technician

HARDWARE REFURBISHMENT

Computer für alle / Griesheim

- Tested and repaired desktop PCs and laptops, including RAM, SSDs, and power supplies.
- Installed and configured Windows and Linux, including drivers and system updates.
- Documented faults and device condition, checked functionality, and prepared computers for handover.

09/2022 – 10/2024

### Independent study: IT security and Linux

Self-directed professional development

Hands-on self-study in IT security and Linux through TryHackMe and dedicated test environments in preparation for full-time training.

2021

### Working Student / Strategy & Public Relations

eprimo GmbH

Maintained and optimised digital web content; analysed website performance and SEO measures.

2020 – 2021

### Working Student / Business Consulting

Signition Holding

Supported B2B business development and operational tasks in marketing and sales digitalisation projects.

## EDUCATION

2019 – 2022

### Studies in Business Administration

Darmstadt University of Applied Sciences

Areas of focus: project management, business law, and investment planning.

2018 – 2019

### Studies in Online Communication

Darmstadt University of Applied Sciences

Foundations in information technology and online marketing.

## LANGUAGES

German – native; English – B2
